February 2012 Astrological Forecast Aquarius New Moon New Moon

As we move into the sign of friends, groups and humanity we will be asked to define our commitment to our own individual feelings and thoughts as well as how we give and receive support to others. This month is about the process of self-realization. We all will be feeling much change with several energy shifts this month. The energy will be felt more internally than externally with irritability for a couple months. The main question to answer is "do my relationships to others support my growth and how I think and feel about myself and the world." We all must form our independent ideas about what is real and what is not. Mars, the energy of action and self-assertion is now energizing us internally to question and analyze life and our relationships. As Saturn the planet of responsibility is also turning inward on February 7th and in Libra, the sign of relationships, the main question asked will be "how are we a CONSCIOUS participant" in all ongoing changes in our relationships, community, country, and the world every day." Another major energy shift this month is that involving Neptune, the planet of LOVE, delusion and relatedness to all life. It will make its way into Pisces, the sign of inspiration and creativity on February the 4th and will be there until 2025. It will be teaching us about love and fear for quite some time. These are exciting times in the evolution of individuals and humanity. And it all starts with the individualization of each of us first and foremost. Our greatest gift is the ability "to create—which is to reveal *what is.*"

Marvin is a full time professional astrologer with 40 years experience. One hour consultation is \$125.

Synergy / Chakra Series w/ Melissa Mogan & Joshua Crawford

Another fabulous Crystalicious Class series presented by Melissa and Joshua.

In this 8-class series they will cover the synergistic effect of the entire chakra system on the etheric, emotional, spiritual and mental bodies.

In this series we will master how each chakra interacts with the others. These are new concepts in the relation between each energy center and how they work off of each other creating a chain reaction for balancing and healing. These classes will offer an in depth look at each energy center with instruction on how to combine energies to create synergistic results that enhance balance and overall well-being.

This series offers techniques on using stones to assist us in recognizing these connections as well as enhancing them.

An excellent way to become intimately involved with your own energetic system as well as learning to work with others, the information that you will receive is leading edge knowledge and how to use it.

Just what is This "HU" That everyone is talking about?

You are invited to come and find out for yourself!

2:15pm-2:45pm

It's a beautiful vibrational experience that you can repeat on your own, any time, any place, anywhere!

FREE

HU (pronounced like the word hue) is an ancient word with immense spiritual power. It is the sound behind all sounds. Singing HU can open your heart, helping you find peace, expand your awareness, and gain a higher perspective on daily problems.

Plenty of time to "HU" between today's classes!

With eyes open or closed, take a few deep breaths to relax. Then begin to sing HU in a long, drawn-out sound, HU-U-U-U. Take another breath, and sing HU again. Continue for up to twenty minutes. Sing HU with a feeling of love, and it will gradually open your heart to unconditional love.

"HU is both a name for God and a sound of the Audible Life Stream, which we know as the ECK, or Holy Spirit. HU is a charged name of God that can spiritually uplift the people of any religion."

"Everybody can be great. Because anybody can serve. You don't have to have a college degree to serve. You don't have to make your subject and your verb agree to serve.... You don't have to know the second theory of thermodynamics in physics to serve. You only need a heart full of grace. A soul generated by love."

It is the Point That Matters

Acupoints Workshop

Sunday February 26th

9am – 1:00pm

\$50

Points are everywhere, inside our body, inside our universe.

Points of universe are the shining pores of God, smiling fragrances of Goddess.

To know the point is to know how God/Creator puts lights in our mind, and where Love births into our body.

Acupoints in our body are the pearls of Chinese / Oriental Civilization, the gifts to humanity.

To unveil those acupoints is to dance with light and love, through our physical skin/ pore, mother earth skin/ soil and universal skin / sky.

The 8 Master points are the central dots / hubs mapping and regulating our body within 9 layers.

By introducing these points, we would trace the history of how each point was named, and wonder how those acupoint names have been established nearly two thousand years ago, long before the discovery of the nervous system, or DNA codes, their anatomical positions and their energetic application.

Each of us is a point, among humanity, within nature.

We are the points of light, points of stars, points of love and points of magic.

All are welcome. No prior experience necessary.

Please pre-register with Katherine at Cosmic Connections.

SPECIAL EVENT

2012: A Positive Perspective

Presented by Dean Graves of Prema Healing / Memphis

Prema Healing is offering a presentation on what the significance of the year 2012 really is and why it is the most important event in human history.

Based upon the Law of One information and subsequent channeled information, they will explain why there is so much hype about the event and what it will mean for you.

It is not an event to be feared or dreaded, but rather an event to prepare for (if you haven't already) and celebrated. No other event in human history can compare. It is what we have been working towards and waiting for 75,000 years.

All of human history culminates in this event and you too can celebrate its arrival with joy and a knowingness that cannot be equaled.
